PM Surya Ghar Muft Bijli Yojana — Authorized Installer

SOLAR ENERGY PROPOSAL

3 kW On-Grid Rooftop Solar System

₹1,38,000
Total Govt. Subsidy

Customer
LINGARAJ BEHERA
JATANI,KHORDHA

Quotation Details
SAS/2026/03/2249
Date: 16 March 2026

About Our Company

Shree Adishakti Solar Pvt Ltd is a premier solar energy solutions company headquartered in Bhubaneswar, Odisha. As an **Authorized Channel Partner of TATA Power Solar**, we bring India's most trusted solar technology directly to homes and businesses across Odisha.

We are officially authorized for solar installations across all four DISCOMs of Odisha — **TPCODL (Central), NODL (North), SODL (South), and WODL (West)** — ensuring seamless integration with the distribution network and hassle-free net metering.

As an approved installer under the **PM Surya Ghar Muft Bijli Yojana**, we handle end-to-end solar project execution including design, procurement, installation, DISCOM liaison, subsidy claim filing, and long-term AMC support.

Our Credentials

- Authorized TATA Power Solar Channel Partner
- MNRE Empanelled Vendor — PM Surya Ghar Yojana
- Authorized for TPCODL, NODL, SODL, WODL
- ISO Certified Installation Team
- 500+ Successful Rooftop Installations
- 25-Year Panel Performance Guarantee

PM Surya Ghar: Muft Bijli Yojana

Government of India's flagship rooftop solar scheme for households

1 Crore	₹75,021 Cr	300 Units
Homes Targeted	Govt. Outlay	Free Electricity/Mo

Subsidy Structure:

- Up to 2 kW: ₹30,000/kW (Central)
- 2-3 kW: ₹18,000/kW for additional kW
- Above 3 kW: Fixed ₹78,000 central subsidy

State Additional Subsidy (Odisha):

- 1-2 kW: ₹50,000 state subsidy
- 2-3 kW: ₹60,000 state subsidy
- Above 3 kW: ₹60,000 (fixed)

TATA Power Solar Excellence

- India's #1 Solar Energy Company
  ₹25,000 Crore+ Revenue Group Company
- Manufacturing since 1989 — 35+ Years
- Modules tested for extreme Indian conditions
- IEC / BIS certified premium quality modules
- Industry's best power output guarantee

Why Go Solar Now?

- Electricity prices rise 5-7% annually
  Maximum subsidy available now — don't delay
- 25-year guaranteed electricity production
- Earn from surplus energy via net metering
- Solar panel costs at all-time lowest
- Odisha gets 300+ sunny days annually

System Specifications

3 kW

On-Grid Rooftop Solar Power Systeml

Solar PV Modules

Brand	TATA Power Solar
Technology	Monocrystalline PERC
Wattage	540 Wp per panel
Quantity	6 Panels
Total Capacity	3 kWp
Efficiency	≥ 21.5%
Cell Type	Half-Cut Cell Technology
Certifications	IEC 61215, IEC 61730, BIS
Product Warranty	10 Years
Performance Warranty	25 Years (>80% output)

Grid-Tied Inverter

Brand	TATA Power / Growatt
Type	String / On-Grid Inverter
Capacity	3 kW
Efficiency	≥ 98.6%
Grid Connection	Single / Three Phase
Protection	IP65 Rated
Monitoring	Wi-Fi / App Based
Certifications	IEC 62109, BIS, Grid Code
Warranty	7 Years (Manufacturer Warranty)
Display	LED Display with Data Logger

Balance of System (BOS) Components

Mounting Structure
HDG MS / Aluminum, 3 kW capacity, wind-load tested up to 150 kmph

DC Cabling
4/6 sq.mm UV-resistant solar cables with MC4 connectors, IP68 rated

AC Cabling
4 sq.mm, 3-core copper armoured cable, ISI marked

DC Distribution Box
IP65 rated, with DC MCB, SPD (Type 1+2), fuse disconnectors

AC Distribution Box
IP65 rated, with AC MCB 4-Pole, SPD (Type 2), isolation switch

Earthing System
3-point GI pipe earthing as per IS:3043, resistance < 2 Ohm

Lightning Arrester
Class II, with down conductor and surge protection

Net Meter
Bi-directional smart meter, installed by DISCOM

Monitoring System
IoT-based cloud monitoring, mobile app, real-time alerts

Expected Energy Generation

Per Day	Per Month	Per Year	25 Years
12-15 kWh Units	**360-450** kWh Units	**4,380** kWh Units	**1,09,500** kWh Units

Financial Analysis & Return on Investment

Total Project Cost	Total Govt. Subsidy	Your Net Investment	Annual Savings
₹2,10,000	— ₹1,38,000	₹72,000	₹26,280

PM Surya Ghar Subsidy Breakdown

Total Project Cost	₹2,10,000
Central Government Subsidy (MNRE)	– ₹78,000
Odisha State Subsidy	– ₹60,000
Total Subsidy Amount	**– ₹1,38,000**
Your Net Investment (After Subsidy)	**₹72,000**

Year-wise Savings Projection (with 5% annual electricity price increase)

Year	Units Generated	Rate (₹/unit)	Annual Savings	Cumulative Savings
Year 1	4,380	₹6.00	₹26,280	₹26,280
Year 2	4,380	₹6.30	₹27,594	₹53,874
Year 3	4,380	₹6.62	₹28,974	₹82,848
Year 5	4,380	₹7.29	₹31,944	₹1,45,214
Year 7	4,380	₹8.04	₹35,218	₹2,13,973
Year 10	4,380	₹9.31	₹40,769	₹3,30,549
Year 15	4,380	₹11.88	₹52,033	₹5,67,087
Year 20	4,380	₹15.16	₹66,408	₹8,68,975
Year 25	4,380	₹19.35	₹84,756	₹12,54,271

2.7 yrs
Simple Payback Period
(On net cost after subsidy)

₹6,57,000
Lifetime Savings (25 yrs)
Without price escalation

Total ROI (25 Years)
vs net investment

AI-Powered Insights for Your 3 kW System

Your 3 kW solar system is the most popular and government-incentivized size under PM Surya Ghar Yojana, generating 12 units (kWh) of clean electricity daily. This is the sweet spot where you receive maximum combined subsidy, making it the most financially intelligent choice for Indian households.

At 3 kW, you can comfortably run 1.5 ton air conditioners, water heaters, refrigerators, washing machines, and all household appliances with surplus energy to spare. Excess generation is exported to the DISCOM grid, earning you credit that offsets nighttime consumption — achieving near-zero electricity bills.

TATA Power's premium solar modules installed by Shree Adishakti Solar's certified engineers carry comprehensive product and performance guarantees. The bifacial panel option captures reflected light from below, boosting output by 5-10% in optimal conditions.

Over the 25-year system life, you will generate approximately 1,09,500 units of electricity. At current tariff rates with standard annual escalation, your total savings exceed ₹7-9 lakhs — representing a 3-4x return on your net investment. This is significantly better than fixed deposits, insurance policies, or most traditional investment instruments.

Environmental Impact — Your Green Contribution

3592	171	89,800	4,380
kg CO_2 Offset/Year	Trees Equivalent/Year	kg CO_2 Saved (25 yrs)	Units/Year Clean Energy

Key Advantages of Going Solar

Zero Electricity Bill
Significantly reduce or eliminate monthly electricity bills for 25+ years after system installation

Appreciating Asset
Solar panels increase property value. Studies show homes with solar sell 4-6% higher than comparable homes

Carbon Neutral Home
Make your home carbon-neutral. Generate clean energy and reduce dependence on coal-based thermal power

Energy Independence
Protect against power cuts and rising electricity costs. Generate your own electricity 365 days a year

Government Backed
PM Surya Ghar Yojana ensures massive subsidies, simplified approvals, and institutional support

Bank Financing Available
Easy solar loans at 7-9% interest. Bank loan amount based on total project cost before subsidy

Net Metering Income
Sell surplus electricity to the grid. Bi-directional meter tracks import/export automatically

25-Year Warranty Peace
Industry's longest warranty. TATA Power guarantees >80% panel output even after 25 years of use

Goods @ 5% GST (Modules + Inverter)	**Included**
Services & BOS @ 18% GST	**Included**
Total GST Amount	**₹17,163**

Note: Solar PV Modules (HSN 85414011) @ 5% GST; Inverter (HSN 85044090) @ 5% GST as per GST Council notification

For Bank / Financial Institution:
- This is a Proforma Invoice for loan processing
- Actual Tax Invoice will be issued at delivery
- Project financed under PM Surya Ghar Yojana
- Subsidy: ₹1,38,000 (after installation)

Warranty Coverage & Project Execution

WARRANTY SUMMARY

Solar PV Panels	Product warranty 10yr · Performance >80% for 25yr (TATA Power Solar)	25 Years
Grid-Tied Inverter	Manufacturer warranty — all electrical & mechanical defects covered	7 Years
Mounting Structure	HDG galvanization · Wind load 150 kmph · Cyclone resistant	5 Years
BOS Components	DC/AC cables, DCDB, ACDB, earthing, connectors from commissioning date	5 Years
Installation Workmanship	All installation quality issues resolved at zero cost within warranty	5 Years
AMC Services	Free comprehensive AMC — cleaning, inspection, monitoring & priority support	5 Years

PROJECT EXECUTION TIMELINE (30–45 DAYS)

Day 1–3
Site Survey & Design
- Rooftop survey & shadow analysis
- Structural feasibility check
- System design & SLD preparation

Day 4–18
Approvals & Documentation
- DISCOM net meter application
- PM Surya Ghar portal registration
- DISCOM technical approval

Day 19–23
Procurement
- Material procurement & inspection
- Quality check at warehouse
- Delivery to site with documents

Day 24–26
Installation
- Structure & panel installation
- DC/AC wiring & DCDB/ACDB
- Inverter & earthing connection

Day 27–31
Commissioning
- System testing & verification Net meter installation (DISCOM)
- Customer training & handover

Ongoing
Subsidy & AMC
- PM Surya Ghar subsidy filing
- Monitoring app setup
- 5-yr free AMC support

Not Included:
- Civil work for structure foundation
- DISCOM penalty charges (if any)
- Battery backup / storage system
- Taxes beyond mentioned GST
- Internal wiring of the house
- Work beyond site boundary
